Rob and Ashley,

The revised Traffic Sections have included my revisions identified in September. I find the Traffic/Transportation Chapters acceptable.

Thanks,

Everett Hauser, AICP, PTP

I've placed the files you will likely need for your review at: P:\LUEG\DPLU\Soitec\12092013-FinalSCDraftPEIR
Please let me know you can access the files at this location.

Thanks,
Rob

Importance: High

Everyone,

Electronic files for the Final Screencheck DPEIR and technical appendices have been downloaded and are located at S:\temp\Ashley Gungle\SOITEC SOLAR DEVELOPMENT\12092013-FinalSCDraftPEIR

I know our LD brethren do not have access to this drive so I will find another way for you folks to access the necessary files.

Please review your last comments/revisions for the Soitec EIR and technical reports along with these Final Screencheck files and verify you're your comments/revisions have been addressed. If you have any questions or comments, feel that there are any files missing, feel you will need more time, etc., please come and talk to Ashley or me.

Your review should consist of following:

Mindy – Biology - EIR chapter and technical studies

Ashley – Land Use – EIR chapter
Emmet – Noise – EIR chapter and technical studies
James – Fire and Emergency Services – EIR chapter and technical studies
Donna – Cultural and Paleontology - EIR chapters and technical studies
Everett – Traffic - EIR chapter and technical studies
Susan – Drainage and SWMP – Technical Studies
Jim – Groundwater - EIR chapter and technical studies

Lisa, Please assign everyone with a 3-hour 3rd iteration specialist assignment, except make it 6 hours for Mindy and Jim, due 12/13/12.

My understanding is that our review of this documentation is now the top priority for us.

Thanks,
Rob
